

How do I add or update my specialties & treatment issues?

Customer Success Liaison - 2020-05-29 - Getting Started

You can add or update your specialties and treatment issues by following the steps:

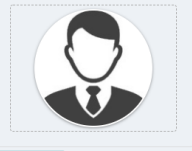

1. Click on your name on the top right corner, choose "Edit Profile" from the drop-down list.

2. Under the "My Profile" tab, select the "Your Specialties and Treatment Issues".
3. Here you can add or modify the specialties and issues that you treat. We have several thousand for you to choose from in our database. If your specialties does not appear in the list, type it and press enter key and it will be added to your list.
4. Make sure to select "Save Changes" before leaving this page.
