

## How do I share my calendar with a client?

Customer Success Liaison - 2020-06-06 - in Calendar and Appointment Scheduling

You can easily share your calendar availability with your clients by following these steps:

1. Open your calendar by clicking on “My Practice” and selecting “Appointments”.

2. Here you will see the “Share Appointment Link” button located on top of the calendar. Clicking on this button will automatically copy the link to your calendar for you to share with your clients so that they can schedule appointments with you.
