

How do my clients schedule secure telehealth session?

Customer Success Liaison - 2020-09-04 - in Calendar and Appointment Scheduling

1. Open your calendar by clicking on “My Practice” and selecting “Appointments”.

2. Select “Share Appointment Link” located at the top right of your calendar. This will automatically copy a link to your calendar. Share this link with your client so that they can schedule an appointment with you.

Your client will be able to [view your calendar](#) and schedule appointments based on [your availability](#) and the [type of services](#) you offer. Once your client selects an appointment time, you will receive a message to confirm.
